COLORADO

NOVEMBER 1965

The November meeting of the Pikes Peak Radio Amateur Association will be held at 8:00p.m. on Wednesday, the 10th, at the Red Cross Building, as usual.....refreshments will be available, the door prizes will be good and so will the speaker -- Mel Roach, WASKAG will talk on "Satellite Tracking".

* * * * *

Max Main spoke to a very limited audience at the last meeting, which was unfortunate because his SSB dissertation was good!

* * * * *

Because several members felt that nominations for new officers should not have been made from within the nominating committee, the election will be made at this meeting, so be there and vote to protect your interests.

* * * * *

Wally, KØWMD, the Convention chairman says that things are starting to move, now, so don't be surprised if he asks you for help.....he's pretty hard to say no to!

* * * * *

John, KØSLN has had to return to St. Francis again...he says that it doesn't interfere with his hamming much, because he just packs up the rig and takes it along, but it sure interfered with his planned hunting trip this time - good luck, John!

* * * * *

There's no peace for the men folk at the hamming Lewis household these days... Rosemarie will be dropping the "N" from her call, having passed the General exam last Thursday ON THE FIRST TRY!!! I won't mention how many times Larry and Eldon made the trip, because they are having a rough enough time. Congratulations, Rosie!

* * * * *

Bill, KØCEN, is blasting the high frequencies these days with a recently acquired GE 600L...hope he finds time for some local ragchews on 2 meters.

Jerry, WA6ANA has a BYLPO for sale for \$100.00 - a good deal for someone!

Cadet Mann at the Air Force Academy has a Hallicrafter SP120 receiver, one year old, for sale for \$65.00. He can be reached at 472-4569 Or 4662 Sunday thru Thursdays.

Al, VE7UG, has lots of goodies he is trying to clear out so he has room to homebrew - some of them are:

NC300 rcvr with xtal calibrator

Kaar 2 meter FM base station

12v, 30W 2 meter FM mobile

Heath HW12 - 12 volt DC supply

Lafayette 6 meter transceiver -AC & DC supplies

You can reach Al at 392-8562 if you would like to deal on any of the above items.

* * * * *

Remember - this will be a better meeting if you are there!!

73,

Art, WA0AEH
